## HSC Preparation Courses for Y7 —Y10

- ❑ With the HSC and **University entrance** being the goal of most high school students, **CS Education** understands the importance of consolidating work learnt at school in order to better prepare students for assessment tasks and eventually the HSC Exam.
- ❑ At CS Education, we believe there are several key factors which determine a student's scholastic performance: **understanding, application** and **confidence**.
- ❑ When a student doesn't **understand** the work that is being taught, most often they will lose what little interest they had and give up altogether. Or perhaps the student is capable of a lot more than what they are being taught at school. Either way, CS Education offers classes in different levels of **Maths** Some classes are graded and all classes are taught by only the best teachers. With their combined experience and knowledge, our students receive the best help available in Sydney!

## Private One-on-One Tutoring Classes

At CS, we also specialise in providing personalised, **one-on-one tutoring** sessions tailored to meet each student's unique needs. Our experienced teachers provide customised support to help students improve their skills, excel in exams, and achieve their academic goals.

## Free Tutorial Classes
